- Entity type: i.e. NZ Limited Company
- Registered Office
- Address for service
- Name and address of directors

By applying for membership of Forest Owners Association I/We declare that we are familiar with the undertakings contained in the following Agreements and Accords and agree to abide with the commitments contained in these documents

Eliminating Illegal Forest Products in New Zealand

<http://www.nzfoa.org.nz/resources/file-libraries-resources/agreements-accords/3-eliminating-illegal-forest-products-in-new-zealand/file>

Signed on 14 August 2008

Consistent with the goals contained in this Accord, forest owners and plantation managers will ensure they have evidence that they meet NZ legislative requirements and will advise partners and associates on the position taken by the NZ forest industry

Log Transport Safety Accord

<https://www.nzfoa.org.nz/resources/file-libraries-resources/agreements-accords/853-new-zealand-log-transport-safety-accord-2021/file>

Signed February 2021

This Accord is between New Zealand Forest Owners Association, New Zealand Farm Forestry Association, Forest Industry Safety Council, Road Transport Forum, Log Transport Safety Council and Forest Industry Contractors Association and was signed February 2021.

Climate Change Accord

<http://www.nzfoa.org.nz/resources/file-libraries-resources/agreements-accords/5-climate-change-accord/file>

Published on 29 October 2007

The Forest Accord was a landmark document when it was signed in 1990, putting an end to years of hostility between forest owners on one hand, and conservationists and outdoor recreation interests on the other. In 2007 the principles of the Accord were reaffirmed in a new Accord addressing climate change. This was signed by representatives of conservation and outdoor recreation groups and the forest industry.

The New Zealand Forest Accord

<http://www.nzfoa.org.nz/resources/file-libraries-resources/agreements-accords/10-nz-forest-accord/file>

Signed 14 August 1991

Agreement between forestry interests and the environment and conservation organisations that made up the New Zealand Rainforest coalition.

Principles for Commercial Plantation Forest Management in New Zealand – 1995

https://www.nzfoa.org.nz/images/stories/pdfs/sustainability_principles_brochure_03.pdf

Promoting understanding between the signatory parties with a view to New Zealand achieving environmental excellence in plantation forest management and participating as an effective advocate internationally for the sustainable management of plantation forests and the protection, preservation, and sustainable management of natural forests. These principles are complementary to the New Zealand Forest Accord.
