Consultation on the Future of Sambar Deer Management in Horowhenua,  
Manawatu, Rangitikei, and Wanganui Gazetted Recreational Hunting  
Area

The Department of Conservation is seeking public comment on the issues and options with respect to the existing and future control and management of sambar deer in the Horowhenua, Manawatu, Rangitikei, and Wanganui Area.

These comments will be used to develop a proposal or plan to modify the existing hunting conditions applied to sambar deer in these areas.

A public discussion document outlining the issues is available from the Department of Conservation website at: [www.doc.govt.nz](http://www.doc.govt.nz) > Conservation > Animal Pests > Sambar Deer

Hard copies can be obtained from the Departments Wanganui Conservancy Office.
